To Whom It May Concern at the FCC:I am an XM Radio subscriber and I am writing to ask you to reject the NAB petition 04-160 which would limit or stop XM Radio from broadcasting weather and traffic information. There is no good reason that I can think of that broadcasters should oppose XM Radio offering local weather and traffic reports of all things. I switch back and forth between my XM Radio and local station WOAI here in San Antonio. XM is not a threat to local news. I choose to listen to different content at different times to get a broad base of information from different viewpoints. It is, in my opinion, contrary to the First Amendment rights to try to keep XM Radio from broadcasting competing information that may present a balanced viewpoint.
Please reject this petition for the good of all radio listeners and our constitutional rights.

Sincerely,
Clarence D. Marshall, Jr.
